DETAILED ACTION

Applicant's representative contacted the examiner in response to the Restriction mailed on June 4, 2008. Applicant's representative noted that the Office Action Summary indicated that the applicant has three months to respond to the Restriction. Applicant's representative also noted that the Office Action Summary indicated that the office action was final. Because the Detailed Action was written as a restriction, applicant's representative requested clarification. The examiner informed applicant's representative that the Office Action was a restriction, and further informed the applicant that a new restriction indicating the proper period for reply and the proper prosecution status of the case would be mailed.

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- I. Group I, claim(s) 26-40, drawn to a method.
 - II. Group II, claim(s) 41-50, drawn to an apparatus.
2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or

corresponding special technical features for the following reasons: The claims do not contain an inventive step over the prior art thus lack of unity exists. Evidence that lack of unity exists can be found in WO 98/14333 and GB P05965A.

3. A telephone call was made to Eugene LeDonne on May 29, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is required to elect a single invention in response to this action as discussed above.
